WHAT WE CAN DO FOR YOU

Since 1994, American Education Systems LC (AES) has focused its efforts on helping current and future financial professionals succeed. We are experts at providing instruction and course materials designed to meet the unique needs of the pre-licensing and continuing education student. In addition to offerings in mandatory education, we provide resources and seminars aimed at building professional success.

At AES, we understand the challenges that financial professionals face. In partnering with us, you will enjoy the confidence of knowing that you are working with professionals that are committed to your success.

INSURANCE CE

We were the first CE provider to offer “complete” self-study courses that meet the full mandatory requirements with one package course and one exam! Along with 24-credit course bundles, we offer individual courses, including approved specialty courses such as Annuity Suitability and on-going LTC.

INSURANCE PE

Our core self-study pre-licensing materials consist of a printed study guide and access to interactive, online

materials. Together, they teach you everything you need to know to pass your test. If you use this package as directed, you'll pass your actual exam on the first try!

Need more information? Contact us at 1-800-775-6339 or email us at aes@amedsys.com. We look forward to hearing from you!
